PROFILE

Fresher MERN stack developer with practical experience in frontend and backend technologies. Proficient in building responsive web applications and implementing creative UI/UX designs. Looking forward to applying technical skills and creativity to exciting development opportunities.

PROJECTS

• PERSONAL PORTFOLIO

Showcases my work as a MERN developer, featuring dynamic web apps and creative UI designs. Highlights my technical skills and expertise.

Technologies Used : HTML, CSS, JAVASCRIPT, REACT JS

• SCHOEPS

Built an ice cream ordering app with features for browsing, wishlist/cart management, PayPal checkout, and feedback. Admins can manage products, review feedback, and create new admins with JWT-secured authorization.

Technologies Used : REACT JS, mongoDB, NODE JS, EXPRESS JS, PAY PAL

• E-CART

A web application where users can browse products, add them to a wishlist or cart, and manage their selections using Redux for state management, with data fetched from a dummy JSON API.

Technologies Used : HTML, CSS, BOOTSTRAP, REACT JS, REDUX JS

• PROJECT FAIR

A MERN stack web application allowing users to perform CRUD operations add, edit, view, and delete projects with token verification for secure access and management.

Technologies Used : JAVASCRIPT, REACT,EXPRESS JS, NODE JS, mongDB

• FLAVOUR FUSION

Recipe sharing application that allows users to explore, bookmark, and manage recipes. It includes features such as token-based authentication, advanced search, and profile customization.

Technologies Used : REACT, EXPRESS JS, NODE JS, mongDB

• EASY CART

An Angular e-commerce cart application with wishlist, cart, and PayPal payment integration. Utilized Angular Forms Module for secure form validation and a seamless checkout experience

Technologies Used : JAVASCRIPT , ANGULAR JS , NODE JS , mongoDB
